### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Gorski on November 14, 2006.

The application has been amended as follows:

Claim 34, line 14, after "to measure", deleted the comma [,], and inserted -in an area--.

2. The following is an examiner's statement of reasons for allowance: the claims define over the prior art of record, specifically Delacroix and Kuo, because references do not teach a method where a measurement is taken of labeled reagents after sample has been added but before any complex is formed in a detection area. These references also do not teach taking a measurement of an amount of label reagent eluted from the labeled reagent area and using this measurement together with measurements taken at the detection site to get an accurate and corrected reading of the amount of analytes in a sample.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao-Thuy L. Nguyen whose telephone number is (571) 272-0824. The examiner can normally be reached on Tuesday and Wednesday from 8:00 a.m. -4:30 p.m..
